

Acknowledgments

Production of this document was managed by the staff of the NAPAP Office of the Director. Current and former members of the staff who were instrumental in the planning, development, and publication of this report are listed below.

Hundreds of scientists and technical specialists contributed over the years to the extensive knowledge base upon which this integrated assessment depended. NAPAP's integrated assessment report to Congress was planned, developed, written, edited, and reviewed in a collaborative effort by many scientists, economists, and technical specialists. Their efforts are greatly appreciated. The authors and contributors to the various sections of the report are listed on the following pages.

Special thanks are extended to the extramural peer reviewers, who are identified following the authors. In addition to providing a technical review, they were asked to consider the content of the report as it relates to public policy. Their comments were timely, relevant, and informative.

NAPAP Office of the Director

Michael Uhart, Director
Noreen Clancy
Karen King

Former Office of the Director

Derek Winstanley, Director
Judy Hickey
John Barnes
Elizabeth Bennett

Editors

Michael Uhart
Noreen Clancy
Katie Smythe,
Science & Policy Associates

Editorial Consultant

Christopher Bernabo,
Science & Policy Associates

Primary Authors and Contributors

Integration and Assessment

Noreen Clancy, NAPAP
Michael Uhart, NAPAP
Katie Smythe,
Science & Policy Associates

Implementation Status

Rosemary Wolfe, U.S. Environmental Protection Agency

Emissions and Compliance Costs

Joe Kruger, U.S. Environmental Protection Agency
Denny Ellerman, Massachusetts Institute of Technology
Juan Pablo Montero, Massachusetts Institute of Technology

Concentration and Deposition

Bruce Hicks, National Oceanic and Atmospheric Administration

Mark Nilles, U.S. Geological Survey

Phil Bowman, U.S. Geological Survey

Joseph Sickles, U.S. Environmental Protection Agency

Aquatic Ecosystems

Tim Sullivan, E&S Environmental Chemistry

Kathy Tonnessen, National Park Service

Webb Van Winkle, Oak Ridge National Laboratory

Rona Birnbaum, U.S. Environmental Protection Agency

Forest Ecosystems

Bob Cook, Oak Ridge National Laboratory

John Joslin, Tennessee Valley Authority

Chris Eagar, U.S. Forest Service

Jennifer Knoepp, U.S. Forest Service

Sandy McLaughlin, Oak Ridge National Laboratory

Carl Trettin, U.S. Forest Service

Materials and Cultural Resources

Victor Mossotti, U.S. Geological Survey

Mary Striegel, National Park Service

Visibility

Marc Pitchford, National Oceanic and
Atmospheric Administration

Human Health

Larry Folinsbee, U.S. Environmental Protection Agency

Tom Grahame, U.S. Department of Energy

Ann Watkins, U.S. Environmental Protection Agency

Adverse Effects

Harry Quarles, Oak Ridge National Laboratory

Response Indicators

Carolyn Hunsaker, Oak Ridge National Laboratory

Benefits Valuation

Dallas Burtraw, Resources for the Future

Erin Mansur, Resources for the Future

Tracking and Analysis Framework

Cary Bloyd, Argonne National Laboratory

Max Henrion, Lumina Decision Systems

Rich Sonnenblick, Lumina Decision Systems

Peer Reviewers

Integration and Assessment

Edward Bennett, New York State Department of Environmental Conservation

James Hammitt, Harvard School of Public Health

Robert Mendelsohn, Yale University School of Forestry and Environmental Studies

Emissions and Compliance Costs

Stephen Brick, Consultant

Andrew Van Horn, Van Horn Consulting

Concentration and Deposition

Thomas Butler, Cornell University

Alan Hansen, EPRI

Aquatic Ecosystems

Nicholas Nikolaidis, University of Connecticut

Kent Thornton, FTN Associates

Forest Ecosystems

Alan Lucier, National Council of the Paper Industry for Air and Stream Improvement

William Smith, Yale University School of Forestry and Environmental Studies

Materials and Cultural Resources

A. Elena Charola, Consultant

John Spence, North Carolina State University

Visibility

Paulette Middleton, Science and Policy Associates
